## Historical Background

The battleship Bismarck, the jewel of the Kriegsmarine, had been sunk in May 1941 during her first sortie at the north Atlantic. This ship was powerful enough to sink the battlecruiser Hood and keep the whole British Navy busy in a long, painful chase.

## Objectives

Now our reports indicate that a replica of the Bismarck has been built in the port of Le Havre, and she will leave today to patrol the coast of Normandy. The French Resistance can help us to put four men there. If we can sabotage that ship, we'll put an early end to the rebirth of a legend, and facilitate future operations in the zone.

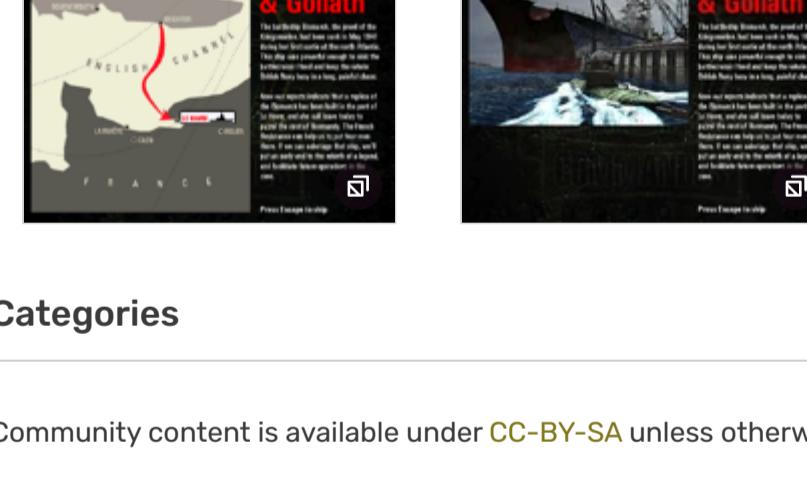

## Tactical Advice

You'll be taken to the southern dock of the port. We know that nearby there is a powerfully armed minisubmarine. You must bring it close to the battleship, and launch one torpedo against the forward section of the hull. Then, you must use a light boat to get southwards to the buoy. Officer, this is a chance to make history. I wish you the best of luck. Thank you.

## Trivia

- The mission name is a reference to the Biblical story with the same name. It refers to shepherd David battling the giant named Goliath.
- The objective where the commandos are tasked to sabotage the German battleship with the use of the minisubmarine resembles the scene in the Bible story where David uses a sling on Goliath.
- A Biber Minisubmarine is featured in this mission.
- This mission has some striking similarities with Operation Source, an attack on the German battleship Tirpitz (the sister ship of the Bismarck) carried out in northern Norway by six British X-craft midget submarines in September 1943.
- This is the second mission to feature an enemy Patrol Boat. The first one was A Quiet Blowup.
- Before you get into the minisub, you must block the Tank Depot's bay with a Truck in order to not let the tank exit. Once if the alarm is sound, it will bring out the Panzer II then it will be positioned to the edge of the port to fire its machine gun at the minisub until it is destroyed, thus failing the mission.
- There is a Gun Battery near the floodgate which can be accessible by the Driver in order to destroy either the incoming Supply Boat or the enemy Patrol Boat (appears occasionally when the alarm is sound).
